

John Paulo B. Lumagbas

Operations Analyst | Data Quality, Reporting and Controls

Biñan City, Laguna, Philippines | 0938 061 9032 | johnlumagbas23@gmail.com

PROFESSIONAL SUMMARY

Detail-oriented Computer Engineering graduate (2026) with hands-on experience in operations support, data entry, data accuracy, sales reporting, and issue troubleshooting in a fast-paced, deadline-driven environment. Experienced in tracking daily, weekly, and monthly performance metrics in Microsoft Excel and Google Sheets, maintaining organized documentation, and resolving issues quickly during live operations. Seeking to join the WM Operations Analyst Program to support accurate, timely end-to-end operational processes, strengthen data quality and controls, and contribute to continuous improvement.

SKILLS

- **Operations and Analysis:** Operations Support, Data Quality, Data Accuracy and Validation, Reporting and Data Monitoring, Issue Investigation and Resolution, Process Improvement, Recordkeeping and Documentation
- **Tools:** Microsoft Excel (SUM, IF, COUNTIF, SUMIF, XLOOKUP), Google Sheets, SQL (fundamentals, currently learning), Figma
- **Technical:** Technical Troubleshooting, Software and Equipment Support, Computer Engineering fundamentals
- **Professional:** Attention to Detail, Multitasking, Time Management, Analytical Thinking, Problem-Solving, Cross-Functional Collaboration, Communication, Adaptability

WORK EXPERIENCE

Livestream Assistant

PH Waveseason Cosmetic Corp. (Time Phoria), Taguig, Metro Manila | April 23, 2026 - August 30, 2026

- Recorded daily livestream sales in Microsoft Excel and Google Sheets, and consolidated the data into weekly and monthly sales reports to monitor business performance.
- Tracked sales, GMV, and key performance metrics, including viewer engagement and conversion results, to support reporting accuracy.
- Maintained accurate business records and documentation, performing data entry and checks to keep daily figures consistent and complete.
- Managed live operations by starting and ending livestream sessions, running technical checks, and monitoring product displays to keep broadcasts running smoothly.
- Identified, investigated, and resolved technical issues in real time during live sessions, minimizing disruption to operations.
- Coordinated with hosts and supervisors to prepare the studio, support daily sessions, and handle ad-hoc tasks, including covering for hosts to ensure continuity of operations.

INTERNSHIP EXPERIENCE (ON-THE-JOB TRAINING)

Web Developer and Designer

CTP Asean Tower, Alabang, Muntinlupa, Metro Manila | July 2025 - September 2025

- Designed website layouts and prototypes using Figma.
- Collaborated with the team on design revisions based on project requirements and feedback.

Web Developer and Designer

DepEd Division of Biñan City, Biñan, Laguna | August 2024 - October 2024

- Assisted in developing the Alternative Learning System (ALS) website under the Curriculum Implementation Division.
- Supported website content organization and page layout.

EDUCATION

Bachelor of Science in Computer Engineering

Polytechnic University of the Philippines, Biñan Campus, Biñan City, Laguna | 2022 - 2026
